

Floor standing distribution board

Part no. BP-F-600/17/3-P-IVS Article no. 111373

Delivery program

Floor-standing enclosures Complete unit Complete housing IP30 (only with door) Profi Plus basic enclosures Sheet steel door with rotary lever Exchangeable door hinges Sheet steel Surface finish Surface finish Colour Information about equipment supplied Width Including mounting system for the IVS mounting units including mounting system for the IVS mounting units including sullating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Width Information about equipment supplied Information about equipment supplied Including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Information about equipment supplied Information about equipment supplied Including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Information about equipment supplied Including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange	Don'tony program		
Complete housing Degree of Protection Description Desc	Product range		Service distribution board IVS
Degree of Protection Description Descripti	Basic function		Floor-standing enclosures
Profi Plus basic enclosures Sheet steel door with rotary lever Exchangeable door hinges Material Sheet steel Surface finish Polyester powder coating Phosphated RAL 7035, light grey Ilight gray (RAL 7035) Including mounting system for the IVS mounting units including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Width mm 600 Height mm 1760	Single unit/Complete unit		Complete housing
Sheet steel door with rotary lever Exchangeable door hinges Material Surface finish Surface finish Polyester powder coating Phosphated RAL 7035, light grey Colour Information about equipment supplied Including mounting system for the IVS mounting units including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Width mm 600 Height Material Sheet steel	Degree of Protection		IP30 (only with door)
Surface finish Polyester powder coating Phosphated RAL 7035, light grey Colour light gray (RAL 7035) Including mounting system for the IVS mounting units including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Width mm 600 Height 1760	Description		Sheet steel door with rotary lever
Phosphated RAL 7035, light grey Colour Including mounting system for the IVS mounting units including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Width mm 600 Height 1760	Material		Sheet steel
Including mounting system for the IVS mounting units including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Width mm 600 Height 1760	Surface finish		Phosphated
including insulating surround and mounted insulated support bracket including cable entry top and bottom, with push-through flange Nidth mm 600 Height mm 1760	Colour		light gray (RAL 7035)
Height mm 1760	Information about equipment supplied		including insulating surround and mounted insulated support bracket
	Width	mm	600
Depth mm 300	Height	mm	1760
	Depth	mm	300

Technical data

General Standards

			IEC 62208
Protection class			1
Degree of Protection			IP30 (only with door)
Power loss			
Max. admissible heat dissipation, ambient air temperature +35 $^{\circ}\text{C}$	١	W	252
Weight	ŀ	kg	46.5
Material characteristics			
Material			Sheet steel
Surface treatment			Painting, phosphated and polyester powder coating
Surface finish			Polyester powder coating Phosphated RAL 7035, light grey
Colour			light gray (RAL 7035)

Type Door Doors

Doors with covered hinges Can be removed from 90°

167° (single mounting) 60° (combination mounting)

Hinge handle with three-point turn-lock

Cylinder lock

EN 60439-1/3

Material properties

Door interlock

Material characteristics

door opening angle

Mechanical			
Impact resistance			IK07
Cable entry			Various covers allow cable entry from above and/or below
Electrical			
Rated operational voltage	U _e	V	690
Rated frequency	f	Hz	50
Rated operational current	I _e	Α	630

Max. admissible heat dissipation, ambient air temperature +35 $^{\circ}\text{C}$	W	252
Earthings		M6 weld stud (base frame) M5 self-tapping screw (enclosure side plate, top/bottom panel) M6 weld stud (door)

Design verification as per IEC/EN 61439

Technical data for design verification			
Heat dissipation, at an ambient temperature of 35°C, delta T: 20 degrees, calculated as per IEC 60890			
Individual enclosure, free-standing	P_{V}	CO	148
Starting enclosure, free-standing	P_V	CO	136
Middle enclosure, free-standing	P_V	CO	126
Individual enclosure for wall mounting	P_V	CO	126
Starting enclosure for wall mounting	P_V	CO	118
Middle enclosure for wall mounting	P_V	CO	112
Heat dissipation, at an ambient temperature of 35°C, delta T: 35 degrees, calculated as per IEC 60890			
Individual enclosure, free-standing	P_{V}	CO	297
Starting enclosure, free-standing	P_V	CO	273
Middle enclosure, free-standing	P_{V}	CO	253
Individual enclosure for wall mounting	P_V	CO	253
Starting enclosure for wall mounting	P_V	CO	237
Middle enclosure for wall mounting	P _V	CO	225
IEC/EN 61439 design verification			
10.2 Strength of materials and parts			
10.2.2 Corrosion resistance			Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures			Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat			Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects			Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation			Not relevant to indoor installations.
10.2.5 Lifting			Met; assembled and secured as per the latest applicable instruction leaflet.
10.2.6 Mechanical impact			IK07
10.2.7 Inscriptions			Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES			IP30
10.4 Clearances and creepage distances			Is the panel builder's responsibility.
10.5 Protection against electric shock			$<$ 0.1 $\Omega;$ meets the product standard's requirements.
10.6 Incorporation of switching devices and components			Is the panel builder's responsibility.
10.7 Internal electrical circuits and connections			Is the panel builder's responsibility.
10.8 Connections for external conductors			Is the panel builder's responsibility.
10.9 Insulation properties			
10.9.2 Power-frequency electric strength			U _i = 440 V AC
10.9.3 Impulse withstand voltage			4 kV
10.9.4 Testing of enclosures made of insulating material			Does not apply to metal enclosures.
10.10 Temperature rise			The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating			Is the panel builder's responsibility.
10.12 Electromagnetic compatibility			Is the panel builder's responsibility.
10.13 Mechanical function			Meets the product standard's requirements.
