

## Covers, transparent, HxWxD=250x375x100mm, NA type

Powering Business Worldwide\*

Part no. D200-Cl43-NA Article no. 014771

$\mathbf{n}_{\mathbf{a}}$	livory	nro	arom
υt	IIVEIY	hio	gram

Product range		Ci insulated enclosures
Basic function		Basic enclosures
Product function		Enclosure covers for North America
Accessories		Enclosure cover NA
Single unit/Complete unit		Modular system
Description		Sealable cover fasteners
Information about equipment supplied		Gasket
Type cover		Transparent
Mounting depth:	mm	200
For use with		U-Cl43

## **Design verification as per IEC/EN 61439**

Design verification as per IEC/EN 61439			
Fechnical data for design verification			
Heat dissipation, at an ambient temperature of 35°C, delta T: 20 degrees, calculated as per IEC 60890			
Individual enclosure for wall mounting	$P_V$	CO	17
Starting enclosure for wall mounting	$P_V$	CO	16
Middle enclosure for wall mounting	$P_V$	CO	16
Heat dissipation, at an ambient temperature of 35°C, delta T: 35 degrees, calculated as per IEC 60890			
Individual enclosure for wall mounting	$P_V$	CO	34
Starting enclosure for wall mounting	$P_{V}$	CO	33
Middle enclosure for wall mounting	$P_{V}$	CO	32
C/EN 61439 design verification			
10.2 Strength of materials and parts			
10.2.2 Corrosion resistance			Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures			Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat			Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects $$			850 °C; meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation			Not relevant to indoor installations.
10.2.5 Lifting			10 kg per enclosure with support frame and lifting aid met; assembled and secured as per the latest applicable instruction leaflet.
10.2.6 Mechanical impact			IK10
10.2.7 Inscriptions			Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES			IP65, with base unit
10.4 Clearances and creepage distances			Is the panel builder's responsibility.
10.5 Protection against electric shock			Protection class 2, therefore not applicable.
10.6 Incorporation of switching devices and components			Is the panel builder's responsibility.
10.7 Internal electrical circuits and connections			Is the panel builder's responsibility.
10.8 Connections for external conductors			Is the panel builder's responsibility.
10.9 Insulation properties			
10.9.2 Power-frequency electric strength			U <sub>i</sub> = 1000 V AC
10.9.3 Impulse withstand voltage			8 kV
10.9.4 Testing of enclosures made of insulating material			Meets the product standard's requirements.
10.10 Temperature rise			The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating			Is the panel builder's responsibility.
10.12 Electromagnetic compatibility			Is the panel builder's responsibility.
10.13 Mechanical function			Meets the product standard's requirements.
