

### Reversing contactor combination, 3p, +2S free, 11kW/400V/AC3

Part no. DIULM25/21(RDC24)
Article no. 107025
Catalog No. XTCR025C21TD

**Delivery program** 

| Product range Application Accessories Utilization category |                |    | Contactor combinations  Star-delta motor starting for contactor combinations  DIUL reversing combinations  NAC-3: Normal AC induction motors: starting, switch off during running AC-4: Normal AC induction motors: starting, plugging, reversing, inching |

# Design verification as per IEC/EN 61439

| 200:gii 1011110411011 40 poi 120/211 01 100  |                   |    |  |
|--|-------------------|----|--|
| Technical data for design verification   |                   |    |  |
| Rated operational current for specified heat dissipation   | In                | Α  | 25   |
| Heat dissipation per pole, current-dependent   | P <sub>vid</sub>  | W  | 1.8  |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub>  | W  | 5.3  |
| Static heat dissipation, non-current-dependent   | P <sub>vs</sub>   | W  | 0.9  |
| Heat dissipation capacity  | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 60   |
| IEC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Meets the product standard's requirements.   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  |                   |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |    |  |
| 10.9.2 Power-frequency electric strength   |                   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |                   |    | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   |                   |    | Is the panel builder's responsibility. The specifications for the switch<br>gear must be observed. $\label{eq:specification}$    |
| 10.12 Electromagnetic compatibility  |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  |                   |    | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

### **Technical data ETIM 6.0**

Low-voltage industrial components (EG000017) / Combination of contactors (EC000010)

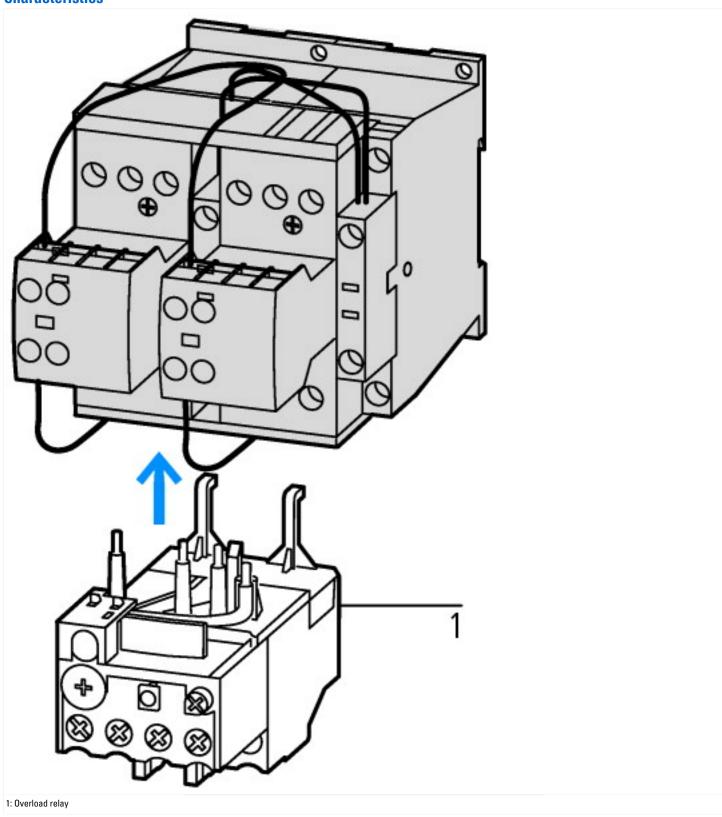

| Electric engineering, automation, process control engineering / Low-voltage switch technology / Contactor (LV) / Combination of contactor (ecl@ss8.1-27-37-10-09 [AGZ572011]) |   |                  |  |  |
|---|---|------------------|--|--|
| Function  |   | Reversing safety |  |  |
| Rated control supply voltage Us at AC 50HZ  | V | 0 - 0            |  |  |
| Rated control supply voltage Us at AC 60HZ  | V | 0 - 0            |  |  |
| Rated control supply voltage Us at DC   | V | 24 - 24          |  |  |
| Voltage type for actuating  |   | DC               |  |  |

| Rated operation current le at AC-3, 400 V     | Α  | 25               |
|---|----|------------------|
| Rated operation power at AC-3, 400 V          | kW | 11               |
| Type of electrical connection of main circuit |    | Screw connection |
| Degree of protection (IP)                     |    | IP00             |

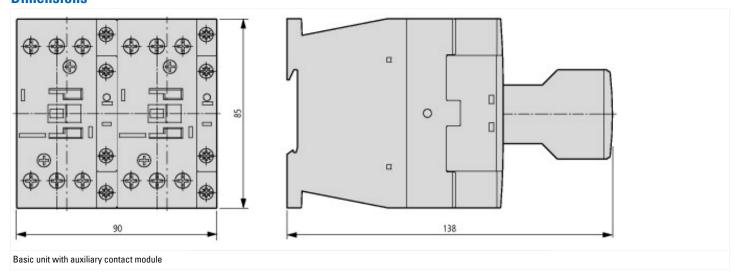

## **Approvals**

| Product Standards                    | IEC/EN 60947-4-1; UL 508; CSA-C22.2 No. 14-05; CE marking |
|--------------------------------------|---|
| UL File No.                          | E29096  |
| UL Category Control No.              | NLDX  |
| CSA File No.                         | 012528  |
| CSA Class No.                        | 2411-03, 3211-04  |
| North America Certification          | UL listed, CSA certified                                  |
| Specially designed for North America | No  |
