### DOL starter wiring set

Mechanical connection element and electrical electric contact module PKZM0-XDM32

Extension terminal BK25/3-PKZ0-E

### Notes

The DOL starter type E (complete devices) consists of a PKE motor-protective circuit-breaker with AK-PKZO, a DILM contactor and an extension terminal BK25/3-PKZO-E.

Motor-protective circuit-breaker and contactor mounted on top hat rail adapter plate.

The connection of the main circuit between PKE and contactor is established with electrical contact modules.
