

Door coupling rotary handle, black, handle+switch, size 2

Powering Business Worldwide*

Part no. NZM2-XTVDV-0 Article no. 279397

Similar to illustration

Delivery program

Door coupling rotary handle LutCSA, IEC NZM2 Lescription Door coupling rotary handle for operating the switch through a closed control panel door unction Standard, black/grey rotection class IP66 Ut/CSA Type 4X, Type 12 ocking facility Lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in 1 position as well with door interlock To defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive poor can be opened in OFF To ject planning information Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. NZM2(-4), PN2(-4), N(S)2(-4) double	- control programm	
tendard/Approval UL/CSA, IEC NZM2 Pescription Door coupling rotary handle for operating the switch through a closed control panel door Standard, black/grey rotection class IP66 UL/CSA Type 4X, Type 12 Ocking facility Dockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock Not defeated in the locked OFF and ON positions Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF roject planning information Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. NZM2(-4), PN2(-4), N(S)2(-4) double	Product range	Accessories
NZM2 Door coupling rotary handle for operating the switch through a closed control panel door unction Standard, black/grey rotection class IP66 UL/CSA Type 4X, Type 12 locking facility lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in 1 position as well With door interlock oor interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF roject planning information Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. NZM2(-4), PN2(-4), N(S)2(-4) double	Accessories	Door coupling rotary handle
Door coupling rotary handle for operating the switch through a closed control panel door Standard, black/grey rotection class IP66 UL/CSA Type 4X, Type 12 lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock oor interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF roject planning information Complete including rotary handle for operating the switch through a closed control panel for the panel fo	Standard/Approval	UL/CSA, IEC
panel door Standard, black/grey rotection class IP66 UL/CSA Type 4X, Type 12 lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock oor interlock Not defeated in the locked OFF and ON position Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF roject planning information or use with NZM2-4), PN2(-4), N(S)2(-4) double	Construction size	NZM2
IP66 UL/CSA Type 4X, Type 12 lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock loor interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF roject planning information Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. NZM2(-4), PN2(-4), N(S)2(-4) double	Description	
UL/CSA Type 4X, Type 12 lockable on the handle on the switch using up to 3 padlocks Modifiable on handle in I position as well With door interlock nor interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF roject planning information Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. NZM2(-4), PN2(-4), N(S)2(-4) double	Function	Standard, black/grey
Modifiable on handle in I position as well With door interlock Not defeated in the locked OFF and ON positions Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. or use with NZM2(-4), PN2(-4), N(S)2(-4) double	Protection class	
Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdrive Door can be opened in OFF Complete including rotary drive and coupling parts For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. or use with NZM2(-4), PN2(-4), N(S)2(-4) double	Locking facility	Modifiable on handle in I position as well
For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle External warning plate/designation label can be clipped on. or use with NZM2(-4), PN2(-4), N(S)2(-4) double	Door interlock	Can be modified in the unlocked ON position Can be modified such that it can be defeated from the outside using a screwdriver
ockable double	Project planning information	For extremely narrow fittings With special short extension shaft Cannot be combined with NZMXDZ additional handle
	For use with	NZM2(-4), PN2(-4), N(S)2(-4)
lotes	lockable	double
	Notes	

Circuit-breaker can also be installed in a lying position 90 ° left/right, with the handle still in the same position.

Design verification as per IEC/EN 61439	
IEC/EN 61439 design verification	
10.2 Strength of materials and parts	
10.2.2 Corrosion resistance	Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures	Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat	Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects	Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation	Meets the product standard's requirements.
10.2.5 Lifting	Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact	Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions	Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES	Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances	Meets the product standard's requirements.
10.5 Protection against electric shock	Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components	Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections	Is the panel builder's responsibility.
10.8 Connections for external conductors	Is the panel builder's responsibility.
10.9 Insulation properties	
10.9.2 Power-frequency electric strength	Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage	Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material	Is the panel builder's responsibility.
10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.

10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

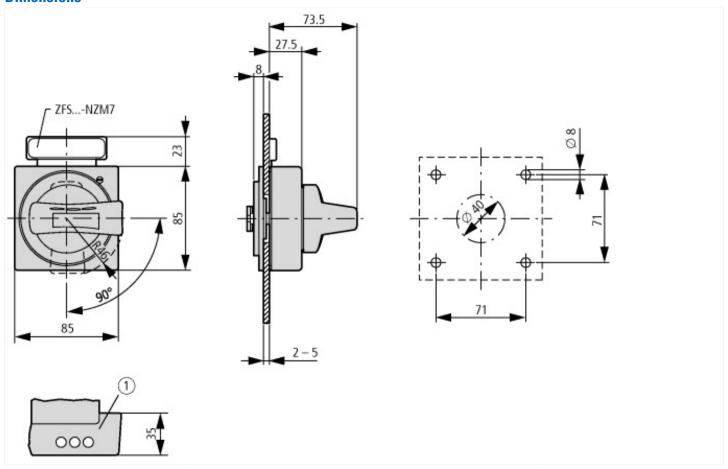

Technical data ETIM 6.0

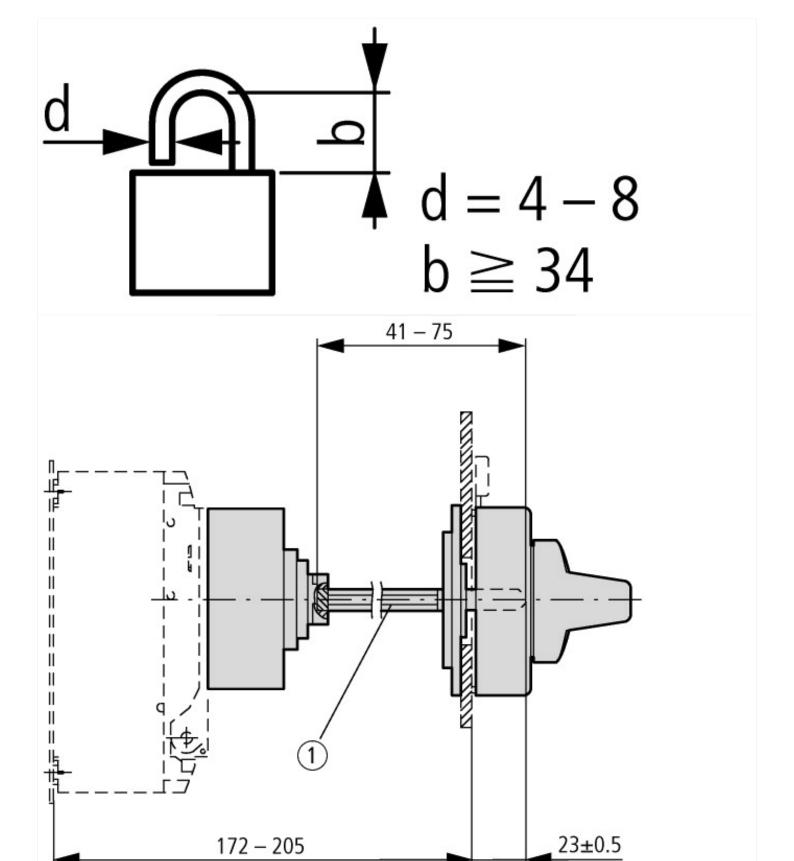

Low-voltage industrial components (EG000017) / Handle for power circuit breaker (EC000229)		
Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Handle for switch devices (ecl@ss8.1-27-37-04-14 [AKF012011])		
Lockable	Yes	
Colour	Black	
Suitable for emergency stop	No	
With axe	No	
Suitable for power circuit breaker	Yes	
Suitable for switch disconnector	Yes	

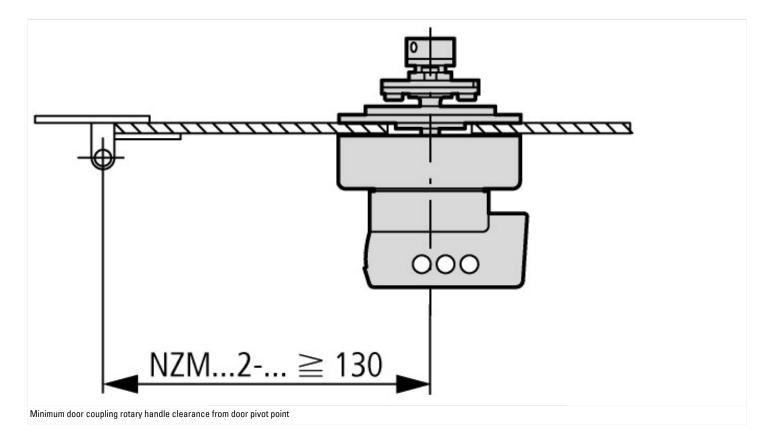

Approvals

Product Standards	UL489; CSA-C22.2 No. 5-09; IEC60947, CE marking
UL File No.	E140305
UL Category Control No.	DIHS
CSA File No.	022086
CSA Class No.	1437-01
North America Certification	UL listed, CSA certified
Degree of Protection	IEC: IP66, UL/CSA Type 4X, 12
