| Design verification as per IEC/EN 61439  |                  |   |  |  |  |
|--|------------------|---|--|--|--|
| Technical data for design verification   |                  |   |  |  |  |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub> | W | 38.4   |  |  |
| IEC/EN 61439 design verification   |                  |   |  |  |  |
| 10.2 Strength of materials and parts   |                  |   |  |  |  |
| 10.2.2 Corrosion resistance  |                  |   | Meets the product standard's requirements.   |  |  |
| 10.2.3.1 Verification of thermal stability of enclosures   |                  |   | Meets the product standard's requirements.   |  |  |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                  |   | Meets the product standard's requirements.   |  |  |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                  |   | Meets the product standard's requirements.   |  |  |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                  |   | Meets the product standard's requirements.   |  |  |
| 10.2.5 Lifting   |                  |   | Does not apply, since the entire switchgear needs to be evaluated.   |  |  |
| 10.2.6 Mechanical impact   |                  |   | Does not apply, since the entire switchgear needs to be evaluated.   |  |  |
| 10.2.7 Inscriptions  |                  |   | Meets the product standard's requirements.   |  |  |
| 10.3 Degree of protection of ASSEMBLIES  |                  |   | Does not apply, since the entire switchgear needs to be evaluated.   |  |  |
| 10.4 Clearances and creepage distances   |                  |   | Meets the product standard's requirements.   |  |  |
| 10.5 Protection against electric shock   |                  |   | Does not apply, since the entire switchgear needs to be evaluated.   |  |  |
| 10.6 Incorporation of switching devices and components   |                  |   | Does not apply, since the entire switchgear needs to be evaluated.   |  |  |
| 10.7 Internal electrical circuits and connections  |                  |   | Is the panel builder's responsibility.   |  |  |
| 10.8 Connections for external conductors   |                  |   | Is the panel builder's responsibility.   |  |  |
| 10.9 Insulation properties   |                  |   |  |  |  |
| 10.9.2 Power-frequency electric strength   |                  |   | Is the panel builder's responsibility.   |  |  |
| 10.9.3 Impulse withstand voltage   |                  |   | Is the panel builder's responsibility.   |  |  |
| 10.9.4 Testing of enclosures made of insulating material   |                  |   | Is the panel builder's responsibility.   |  |  |
| 10.10 Temperature rise   |                  |   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |  |  |
| 10.11 Short-circuit rating   |                  |   | Is the panel builder's responsibility. The specifications for the switchgear must b<br>observed.                                 |  |  |
| 10.12 Electromagnetic compatibility  |                  |   | Is the panel builder's responsibility. The specifications for the switchgear must b<br>observed.                                 |  |  |
| 10.13 Mechanical function  |                  |   | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |  |  |

## **Technical data ETIM 6.0**

Low-voltage industrial components (EG000017) / Power circuit-breaker for trafo/generator/installation prot. (EC000228)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Circuit breaker for power transformer, generator and system protection (ecl@ss8.1-27-37-04-09 [AJZ716010])

| Rated permanent current lu                                | А  | 160                                      |
|---|----|--|
| Rated voltage   | V  | 440 - 440                                |
| Rated short-circuit breaking capacity Icu at 400 V, 50 Hz | kA | 25                                       |
| Overload release current setting                          | А  | 125 - 160                                |
| Adjustment range short-term delayed short-circuit release | А  | 960 - 1600                               |
| Adjustment range undelayed short-circuit release          | А  | 125 - 160                                |
| Integrated earth fault protection                         |    | No                                       |
| Type of electrical connection of main circuit             |    |  |
| Device construction                                       |    | Built-in device fixed built-in technique |
| Suitable for DIN rail (top hat rail) mounting             |    | No                                       |
| DIN rail (top hat rail) mounting optional                 |    | Yes                                      |

| Number of auxiliary contacts as normally closed contact | 0            |
|---|--------------|
| Number of auxiliary contacts as normally open contact   | 0            |
| Number of auxiliary contacts as change-over contact     | 0            |
| Switched-off indicator available                        | No           |
| With under voltage release                              | No           |
| Number of poles   | 3            |
| Position of connection for main current circuit         | Front side   |
| Type of control element                                 | Rocker lever |
| Complete device with protection unit                    | Yes          |
| Motor drive integrated                                  | No           |
| Motor drive optional                                    | Yes          |
| Degree of protection (IP)                               | IP20         |

## Approvals

| Product Standards                    | UL 489; CSA-C22.2 No. 5-09; IEC 60947-2; CE marking |
|--------------------------------------|---|
| UL File No.                          | E31593  |
| UL Category Control No.              | DIVQ  |
| CSA File No.                         | 022086  |
| CSA Class No.                        | 1432-01   |
| North America Certification          | UL listed, CSA certified                            |
| Specially designed for North America | Yes   |
| Suitable for                         | Feeder circuits, branch circuits                    |
| Current Limiting Circuit-Breaker     | Yes   |
| Max. Voltage Rating                  | 600Y/347 V, 480 V                                   |
| Degree of Protection                 | IEC: IP20; UL/CSA Type: -                           |
|                                      |   |
