## Design verification as per IEC/EN 61439

| 200.g.: 1011110411011 40 por 120, 211 01 100   |                   |   |  |
|--|-------------------|---|--|
| Technical data for design verification   |                   |   |  |
| Rated operational current for specified heat dissipation   | In                | Α | 0  |
| Heat dissipation per pole, current-dependent   | P <sub>vid</sub>  | W | 0  |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub>  | W | 0  |
| Static heat dissipation, non-current-dependent   | P <sub>vs</sub>   | W | 0  |
| Heat dissipation capacity  | P <sub>diss</sub> | W | 0  |
| IEC/EN 61439 design verification   |                   |   |  |
| 10.2 Strength of materials and parts   |                   |   |  |
| 10.2.2 Corrosion resistance  |                   |   | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |   | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |   | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |   | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |   | Please enquire   |
| 10.2.5 Lifting   |                   |   | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.2.6 Mechanical impact   |                   |   | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.2.7 Inscriptions  |                   |   | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   |   | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.4 Clearances and creepage distances   |                   |   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |                   |   | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.6 Incorporation of switching devices and components   |                   |   | Does not apply, since the entire switchgear needs to be evaluated.                                       |
| 10.7 Internal electrical circuits and connections  |                   |   | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |   | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |   |  |
| 10.9.2 Power-frequency electric strength   |                   |   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   |   | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |                   |   | Not applicable.  |
| 10.11 Short-circuit rating   |                   |   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.           |
| 10.12 Electromagnetic compatibility  |                   |   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.           |
| 10.13 Mechanical function  |                   |   | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed. |
|  |                   |   |  |

## **Technical data ETIM 6.0**

Low-voltage industrial components (EG000017) / Front element for push button (EC000221)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Command and alarm device / Front element for push-button actuators (ecl@ss8.1-27-37-12-10 [AKF028011])
