## Design verification as per IEC/EN 61439

|  |                   |    |  |
|--|-------------------|----|--|
| Technical data for design verification   |                   |    |  |
| Rated operational current for specified heat dissipation   | I <sub>n</sub>    | A  | 20   |
| Heat dissipation per pole, current-dependent   | P <sub>vid</sub>  | W  | 0.6  |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub>  | W  | 0  |
| Static heat dissipation, non-current-dependent   | P <sub>vs</sub>   | W  | 0  |
| Heat dissipation capacity  | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 50   |
| IEC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.                         |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Please enquire   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.                         |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.                         |
| 10.5 Protection against electric shock   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.6 Incorporation of switching devices and components   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.7 Internal electrical circuits and connections  |                   |    | Is the panel builder's responsibility.                             |
| 10.8 Connections for external conductors   |                   |    | Is the panel builder's responsibility.                             |
| 10.9 Insulation properties   |                   |    |  |
| 10.9.2 Power-frequency electric strength   |                   |    | Is the panel builder's responsibility.                             |
| 10.9.3 Impulse withstand voltage   |                   |    | Is the panel builder's responsibility.                             |

|  |  |  |
|--|--|--|
| 10.9.4 Testing of enclosures made of insulating material |  | Is the panel builder's responsibility.   |
| 10.10 Temperature rise                                   |  | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating                               |  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility                      |  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function                                |  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

| Max. rated operation voltage Ue AC  | V  |  | 690                                      |
| Rated operating voltage   | V  |  | 690 - 690                                |
| Rated permanent current Iu  | A  |  | 20                                       |
| Rated permanent current at AC-21, 400 V   | A  |  | 20                                       |
| Rated operation power at AC-3, 400 V  | kW |  | 5.5                                      |
| Rated short-time withstand current Icw  | kA |  | 0.32                                     |
| Rated operation power at AC-23, 400 V   | kW |  | 5.5                                      |
| Switching power at 400 V  | kW |  | 5.5                                      |
| Conditioned rated short-circuit current Iq  | kA |  | 6  |
| Number of poles   |    |  | 1  |
| Number of auxiliary contacts as normally closed contact   |    |  | 0  |
| Number of auxiliary contacts as normally open contact   |    |  | 0  |
| Number of auxiliary contacts as change-over contact   |    |  | 0  |
| Motor drive optional  |    |  | No                                       |
| Motor drive integrated  |    |  | No                                       |
| Voltage release optional  |    |  | No                                       |
| Device construction   |    |  | Built-in device fixed built-in technique |
| Suitable for ground mounting  |    |  | No                                       |
| Suitable for front mounting 4-hole  |    |  | No                                       |
| Suitable for front mounting center  |    |  | Yes                                      |
| Suitable for distribution board installation  |    |  | No                                       |
| Suitable for intermediate mounting  |    |  | No                                       |
| Colour control element  |    |  | Black                                    |
| Type of control element   |    |  | Toggle                                   |
| Interlockable   |    |  | No                                       |
| Type of electrical connection of main circuit   |    |  | Screw connection                         |
| Degree of protection (IP), front side   |    |  | IP65                                     |

## Approvals

|                                      |  |  |   |
|--------------------------------------|--|--|---|
| Product Standards                    |  |  | UL 508; CSA-C22.2 No. 14-05; CSA-C22.2 No. 94; IEC/EN 60947-3; CE marking   |
| UL File No.                          |  |  | E36332  |
| UL Category Control No.              |  |  | NLRV  |
| CSA File No.                         |  |  | 12528   |
| CSA Class No.                        |  |  | 3211-05   |
| North America Certification          |  |  | UL listed, CSA certified  |
| Specially designed for North America |  |  | Yes, with an alternative front plate and/or terminal markings to those of the IEC type in combination with "+NA" (105864) |
| Suitable for                         |  |  | Branch circuits, suitable as motor disconnect   |
| Degree of Protection                 |  |  | IEC: IP65; UL/CSA Type 1, 12  |
