Technical data

Notes

| General | For HEAVYCON housing type B6 to B48, HC-M-BMF hinged module carrier frame required, CK4,0 crimp contacts, crimp contacts not supplied as standard. |
|---------|--|
| General | Connectors may be operated only when there is no load/voltage. |

Mounting

| Assembly instructions | To ensure correct use, installation in housing with IP54 protection or better is required |
|-----------------------|--|
| | The UNIFOX RT-CK 4.0 tool Item No. 1072064) is required for removing the crimp contacts. At every "C" contact chamber, the position of the contact retaining springs is marked with two black markings on the connection side. From the connection side, the tool is pushed over the contact in a position-oriented manner, so that it touches both the retaining springs. Then insert it up to the limit stop. Do not turn the inserted tool. Push the conductor out of the insulating body along with the tool from the connection side. |
