Contact insert module, number of positions: 2, power contacts: 2, control contacts: 0, Socket, Axial screw connection, 1000 V, 100 A, 10 mm<sup>2</sup> ... 35 mm<sup>2</sup>, application: Power

## Commercial data

Item number	1417390
Packing unit	2 pc
Minimum order quantity	2 pc
Sales key	BF62
Product key	BF7ACE
Catalog page	Page 573 (C-2-2019)
GTIN	4055626112701
Weight per piece (including packing)	66.31 g
Weight per piece (excluding packing)	66.31 g
Customs tariff number	85366990
Country of origin	PL

PHŒNIX

## Technical data

#### Notes

General	For HEAVYCON HC-B6 to B48 housing, snap-in module frame required, axial connection for 4 mm Allen key
General	Connectors may be operated only when there is no load/voltage.
General	The axial screw connection must be established using a 4 mm Allen key (for stranded conductors only)

### Mounting

Assembly instructions	To ensure correct use, installation in housing with IP54 protection or better is required
	Note regarding axial connection
	technology:   Only for stranded wires. The specified conductor cross sections refer to the geometric cross section of the cable used.   Cables with a geometric cross section which deviates significantly from the nominal cable cross section must be checked before use.   The axial connection technology connection space is designed for fine strand cables according to VDE 0295 Class 5. Deviating cable structures (e.g., Class 6 cables) must be checked before use.   Assembly instructions   Before assembly, ensure that the tapered screw is fully loosened (chamber is open). Cables must not be twisted. The wires must
	be pushed into the contact chamber as far as they will go (until the insulation touches the contact). Hold the wires in position and tighten using an Allen key. The used wire end must be cut off before reconnection. The terminal screw must only be retightened once to prevent the litz wires from breaking. To prevent damage to the contact, the wire/cable must be mechanically held at an appropriate distance from the connection point (e.g., when used in a plate cut out). For notes on correct execution, see DIN VDE 0100-520:2003-06. Unused connections must be tightened with maximum torque.
Hexagonal socket	SW 4

### Product properties

Product type	Modular contact insert
Number of positions	2
Connection profile	2
Contact numbering	1 - 2
Application	Power
Number of module slots	2
No. of power contacts	2
No. of control contacts	0
Contact material type	turned
Series	HC-M-HS

#### 1417390

Insulation characteristics	
Overvoltage category	III
Degree of pollution	3
connection data	
Connection technology	
Connection technology	Axial screw connection
Conductor connection	
Conductor cross section	10 mm <sup>2</sup> 35 mm <sup>2</sup> (The cross section specification refers to the geometric cross section of the cable used)
Connection cross section AWG	8 2
Tightening torque	6 Nm (10 mm <sup>2</sup> 16 mm <sup>2</sup> )
	7 Nm (25 mm²)
	8 Nm (35 mm²)
Stripping length of the individual wire	14 mm (with an outside conductor diameter up to 9 mm)
	16 mm (with an outside conductor diameter up to 11.5 mm)
Vimensions	
Dimensional drawing	
Width	34.2 mm
Height	50.3 mm
Length	29.4 mm
Mechanical characteristics	
Minimum housing height	72 mm
Contact diameter	8 mm
ectrical properties	
Rated voltage (III/3)	1000 V
Rated surge voltage	8 kV
Rated current	100 A
lechanical properties	
Mechanical data	
Insertion/withdrawal cycles	≥ 500
laterial specifications	
Flammability rating according to UL 94	VO
Contact material	Copper alloy
Contact surface material	Ag
