Fieldbus modular coupler partition plate

The FB-MODULAR-PP is a partition plate used between two fieldbus modular device couplers and provides the required 50 mm spacing between an intrinsically safe electrical connection and a non-intrinsically safe electrical connection. The device couplers are 17.5 mm wide, but when adding a partition plate a 22.5 mm TBUS connector is required.

### Product Description

Fieldbus modular device couplers can now be installed with an intrinsically safe electrical connection next to a non-intrinsically safe electrical connection. The partition plate provides the required 50 mm spacing when using Zone 2 installed device couplers with an intrinsically safe output in the same enclosure as non-intrinsically safe Zone 2 installed device couplers.

### Key Commercial Data

Packing unit	1 pc
GTIN	 4 055626 352664
GTIN	4055626352664
Weight per Piece (excluding packing)	20.000 g
Custom tariff number	85472000
Country of origin	United States

### Technical data

#### Dimensions

Width	5 mm
Height	79 mm
Depth	137 mm
