Contact insert, number of positions: 4+2+PE, size: COM, power contacts: 4, control contacts: 2, number of connections per position: 1, Socket, Axial screw connection, 400 V, 40 A, 2.5 mm² ... 6 mm², application: Power/signal

Product description

Contact insert, incl. 4 mounting screws

Your advantages

- · Easy installation without tools, even when mounted, with push-in connection technology
- · Shortest installation time compared to other connection technologies
- · Quick and effortless wiring, in particular when space is tight
- · Automatic cabling with robots possible
- · Safe wiring and operation with color-coded actuators
- Shock and vibration-resistant in accordance with DIN EN 61373
- · Cost-effective and fast coding with plastic profiles

Commercial data

Item number	1079557
Packing unit	1 pc
Minimum order quantity	1 pc
Sales key	BF61
Product key	ВF7АВН
Catalog page	Page 649 (C-2-2019)
GTIN	4055626800356
Weight per piece (including packing)	54.6 g
Weight per piece (excluding packing)	56.3 g
Customs tariff number	85366990
Country of origin	CN

Technical data

Notes

Mounting		
Assembly instructions	To ensure correct use, installation in housing with IP54 protection or better is required	
	Note regarding axial connection technology: Only for stranded wires. The specified conductor cross sections refer to the geometric cross section of the cable used. Cables with a geometric cross section which deviates significantly from the nominal cable cross section must be checked before use. The axial connection technology connection space is designed for fine strand cables according to VDE 0295 Class 5. Deviating cable structures (e.g., Class 6 cables) must be checked before use. Assembly instructions Before assembly, ensure that the tapered screw is fully loosened (chamber is open). Cables must not be twisted. The wires must be pushed into the contact chamber as far as they will go (until the insulation touches the contact). Hold the wires in position and tighten using an Allen key. The used wire end must be cut off before reconnection. The terminal screw must only be retightened once to prevent the litz wires from breaking. To prevent damage to the contact, the wire/cable must be mechanically held at an appropriate distance from the connection point (e.g., when used in a plate cut out). For notes on correct execution, see DIN VDE 0100-520:2003-06. Unused connections must be tightened with maximum torque.	
Hexagonal socket	SW 2	

Product properties

Todate properties		
Туре	COM	
Product type	Contact insert with a fixed no. of positions	
Number of positions	6	
Connection profile	4+2+PE	
Contact numbering	1 - 4 (power contacts)	
	11 - 12 (control contacts)	
Application	Power/signal	
Number of connections per position	1	
No. of power contacts	4	
No. of control contacts	2	
Contact material type	turned	
Series	HC-COM	
Insulation characteristics		
Overvoltage category	III
