ESD electronic needle-nose pliers, 45° angle, smooth grip, with opening spring, non-reflective coating and phosphate-treated, two-component grip

Product description

Note:

Due to the current challenges of the global procurement market, Phoenix Contact has unfortunately been forced to accept a different ESD-compliant material. In future, the tools will be supplied with plastic handles in black/turquoise. This does not affect the function or quality of the ESD pliers.

Your advantages

- Through-connected joint for permanent stability and optimum distribution of force
- Ergonomically designed two-component handles for fatigue-proof and non-slip use
- · Opening spring for uniform, smooth opening
- The special conductive plastic handles ensure slow and safe removal of electrostatic energy according to standards and directives such as DIN EN 61340-5
- · Made from special high-grade tool steel
- · Mirror-polished and phosphate-treated metal surfaces for optimum rust protection and no glare when working
