Crimp contact, Range of articles: PRC 35, max. conductor cross section: 6 mm<sup>2</sup>, rated voltage: 690 V AC, rated current: 35 A, Connection method: Crimp connection, Contact connection type: Pin. Crimp the wire with the crimp contact in accordance with DIN EN 60352-2

## Product description

Pin contact for PRC device connectors

## Your advantages

- · Crimp contacts for PRC device connectors for assembly
- + 3 variants for wire cross sections of 2.5 / 4.0 / 6.0  $\mbox{mm}^2$

## Commercial data

| Item number                          | 1409209            |
|--------------------------------------|--------------------|
| Packing unit                         | 100 pc             |
| Minimum order quantity               | 100 pc             |
| Sales key                            | AB03               |

# Technical data

| General     | Crimp the wire with the crimp contact in accordance with<br>DIN EN 60352-2   |
|-------------|--|
| General     | Please remove the crimping pliers locator  |
| afety note  |  |
| Safety note | WARNING: Commission properly functioning products only.<br>The products must be regularly inspected for damage.<br>Decommission defective products immediately. Replace<br>damaged products. Repairs are not possible.   |
|             | <ul> <li>WARNING: Only electrically qualified personnel may install a<br/>operate the product. They must observe the following safety<br/>notes. The qualified personnel must be familiar with the basics<br/>electrical engineering. They must be able to recognize and<br/>prevent danger. The relevant symbol on the packaging indicate<br/>that only personnel familiar with electrical engineering are<br/>allowed to install and operate the product.</li> </ul> |
|             | WARNING: The connectors may not be plugged in or disconnected under load. Ignoring the warning or improper use may damage persons and/or property.   |
|             | <ul> <li>Assembled products may not be manipulated or improperly opened.</li> </ul>  |
|             | <ul> <li>Only use mating connectors that are specified in the technica<br/>data of the standards listed (e.g. the ones listed in the product<br/>accessories online at phoenixcontact.com/products).</li> </ul>  |
|             | <ul> <li>When using the product in direct connection with third-party<br/>manufacturers, the user is responsible.</li> </ul>   |
|             | <ul> <li>For operating voltages &gt; 50 V AC, conductive connector<br/>housings must be grounded</li> </ul>  |
|             | <ul> <li>Ensure that the protective or functional ground has been<br/>properly connected.</li> </ul>   |
|             | <ul> <li>VDE 0100/1.97 § 411.1.3.2 and DIN EN 60 204/11.98 § 14.1<br/>are applicable when combining several circuits in a cable and/o<br/>connector</li> </ul>   |
|             | <ul> <li>Observe the corresponding technical data. You will find<br/>information:</li> <li>o On the product</li> <li>o On the packing label</li> <li>o In the supplied documentation</li> <li>o Online at phoenixcontact.com/products under the product</li> </ul>   |
|             | Only use tools recommended by Phoenix Contact  |
|             | <ul> <li>The installation notes/Design In documents online on the<br/>download page at phoenixcontact.com/products must be<br/>observed for this product.</li> </ul>   |
|             | <ul> <li>Use a protective cap to protect connectors that are not in use<br/>The suitable accessories are available online in the accessory<br/>section of the product at phoenixcontact.com/products</li> </ul>  |
|             | Operate the connector only when it is fully plugged in.  |
|             | <ul> <li>Operate the connector only when it is fully plugged in and<br/>interlocked.</li> </ul>  |

• Ensure that when laying the cable, the tensile load on the connectors does not exceed the upper limit specified in the standards.

• Observe the minimum bending radius of the cable. Lay the cable without twisting it.

• The connector warms up in normal operation. Depending on the ambient conditions, the surface of the connector can continue to warm up. In this case, the user is responsible for posting warnings (e.g. DIN EN ISO 13732-1:2008-12).
