FO converter with integrated optical diagnostics, alarm contact, for RS-485 2-wire bus systems (SUCONET K, Modbus ...) up to 500 kbps, NRZ coding, terminal device with one FO interface (FSMA), 660 nm, for polymer/PCF fiber cable

Product description

The PSI-MOS-RS485W2/FO... FO converters convert the electrical data signal into an optical one by protocol transparent means. The integrated optical diagnostics allow permanent monitoring of the FO paths during installation and also during operation. The floating switch contact is activated when the signal output on the fiber optic paths drops to a critical level. The PSI-MOS-RS485W2/FO... E termination devices convert an RS-485 interface to a fiber optic cable. They are ideal for point-to-point connections.

Your advantages

- Can be combined with the PSI copper repeater in a modular way using DIN rail connectors
- · Supply voltage and data signals routed through the DIN rail connectors
- · Connections can be plugged in via a COMBICON screw terminal block
- · Automatic data rate detection or fixed data rate setting via DIP switches
- · High-quality electrical isolation between all interfaces (RS-485 // fiber optic ports // power supply // DIN rail connector)
- Redundant power supply possible by means of optional system power supply unit
- · Approved for use in zone 2
- Intrinsically safe fiber optic interface (Ex op is) for direct connection to devices in zone 1
- · Integrated optical diagnostics for continuous monitoring of FO paths
- · Floating switch contact for advance warning of critical FO paths
- · Suitable for data rates up to 500 kbps
- · Bit retiming for any cascading depth
- · Shipbuilding approval in accordance with DNV GL

Commercial data

Item number	2708313
Packing unit	1 pc
Minimum order quantity	1 pc
Sales key	DN06
Product key	DNC212
Catalog page	Page 435 (C-6-2019)
GTIN	4017918974015
Weight per piece (including packing)	232.266 g
Weight per piece (excluding packing)	186.98 g

Technical data

Notes

Utilization restriction	
EMC note	EMC: class A product, see manufacturer's declaration in the download area
Utilization restriction	
CCCex note	Use in potentially explosive areas is not permitted in China.

Product properties

Product type	Media converter
MTTF	967 Years (SN 29500 standard, temperature 25°C, operating cycle 21%)
	428 Years (SN 29500 standard, temperature 40°C, operating cycle 34.25%)
	176 Years (SN 29500 standard, temperature 40°C, operating cycle 100%)
MTBF	358 Years (Telcordia standard, 25°C temperature, 21% operating cycle (5 days a week, 8 hours a day))
	73 Years (Telcordia standard, 40°C temperature, 34.25% operating cycle (5 days a week, 12 hours a day))

Electrical properties

Electrical isolation	VCC // RS-485
Maximum power dissipation for nominal condition	2.4 W
Test voltage data interface/power supply	1.5 kV _{rms} (50 Hz, 1 min.)

Supply

Supply voltage range	18 V DC 30 V DC (via pluggable COMBICON screw terminal block)
Nominal supply voltage	24 V DC (in acc. with UL)
Typical current consumption	100 mA (24 V DC)
Max. current consumption	130 mA
	≤ 2 A (For operation in a joining station, via the DIN rail connector)

Output data

Switching

Output name	Relay output
Output description	Alarm output
Number of outputs	1
Maximum switching voltage	60 V DC (Resistive Load, General Load)
	30 V AC (Resistive load)
	42 V AC (peak, resistive load)
Limiting continuous current	0.46 A
