Bolt connection terminal block, nom. voltage: 1000 V, nominal current: 41 A, number of connections: 2, connection method: Bolt connection, Rated cross section: 6 mm<sup>2</sup>, mounting type: NS 35/7,5, NS 35/15, color: gray

### Your advantages

- · The special clamping nuts can be actuated with a normal screwdriver
- · Large-surface labeling options in the terminal center and above the terminal points
- Quick and easy connection with fold-up hinged covers which hold the clamping nuts captive. With the covers folded open, the bolt is free to accept the cable lugs
- · After closing and engaging the covers, the clamping nut automatically aligns with the threaded bolt and can be tightened easily.
- · Easy bridging and potential distribution using the patented plug-in bridges from the CLIPLINE complete system
- · The screws are secured against loosening by captive spring-loaded spacers
- The use of the switching lock effectively prevents unintentional switching
- Testing with the standardized test adapters and test plugs of the CLIPLINE complete system
- The hinged cover cover the live metal parts including the insulated cable lugs in the clamping area so that they are touch proof
- · Tested for railway applications
