Sensor/actuator terminal block, nom. voltage: 24 V, nominal current: 18 A, number of connections: 4, connection method: Spring-cage connection, Rated cross section: 2.5 mm², cross section: 0.08 mm² - 4 mm², mounting type: NS 35/7,5, NS 35/15, color: gray

Your advantages

- · Three-conductor output terminal block of the same shape with PE connection in the lower level for wiring actuators
- · Power terminal blocks can be located at any point on the terminal strip for supply or extension purposes
- · Easy bridging and potential distribution using the patented plug-in bridges from the CLIPLINE complete system
- · Versions with LED for indicating the switching states
- · The upper level is for signal wiring, whereas the two lower levels are used to distribute the positive and negative potential
- · Potential is supplied via the STIO-IN power terminal blocks
- For space and time-saving wiring of three-conductor initiators and actuators
