

### Item description

WAGO's 750-106 and 750-107 Marker Carriers allow I/O functions to be identified throughout the node via continuous marking strips. Both carrier models permit continuous marking regardless of the I/O module housing used.

- 750-106, for I/O module housing with up to 4 LEDs, as well as for 48 mm I/O module housing
- 750-107, for I/O module housing with 8 or 16 LEDs

The marker carrier can be accommodated in the upper Mini-WSB marker slot. It is not necessary to use a carrier on each I/O module to mount the marking strip.

### Data

#### Technical Data

Suitable	for 750/753 Series; for I/O module housings with 8 or 16 LEDs
Features	for I/O module housing with 8 or 16 LEDs

Subject to changes. Please also observe the further product documentation!
