Intermediate coupler; 5-pole/3-pole; Cod. P; L1 - L; red

www.wago.com/770-911

Item description

- Protected against mismating and maintenance-free
- Additional variable coding is possible

Note:

All connectors for mounted installations (snap-in versions for lighting fixtures or devices, all types of PCB and distribution connectors) are factory-equipped with locking levers to ensure plugs and sockets are securely locked. Additional locking levers are only required for flying leads (plug /socket).

Note on mismating protection:

All WINSTA® components are 100% protected against mismating when:

- a.) plugging different numbers of poles
- b.) plugging while rotated 180
- c.) plugging while laterally staggered
- d.) plugging one pole

Safety information 1:

Application note for the U.S. market (USR): Some versions may also be used for current interruption in accordance with the UL certificate in select applications with currents below 16 A and voltages up to 600 V. For further information, please contact your local sales office.

Subject to changes. Please also observe the further product documentation!

Installation Notes

Installation

The mounting plate for distribution connectors can be mounted using commercially available screws or nail-drive anchors.

The distribution connectors are latched when mounted on the mounting plate.

To release the distribution connector, unlock the latch using a screwdriver.

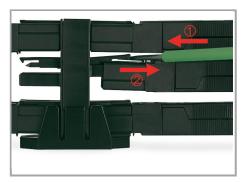

Subject to changes. Please also observe the further product documentation!
