Flexible printing on plastic and metal markers

The PrintJet ADVANCED is an inkjet printer which prints on plastic markers in MultiCard format and metal markers of the MetalliCard family. Thanks to its high loader capacity, it is ideal for printing large volumes in continuous operation. The precise colour printing and thermal fixing guarantee optimum print results for the durable identification of equipment. With these properties, the PrintJet ADVANCED brings efficiency to the operating process – whether operated with the M-Print® PRO software or as a stand-alone solution with preconfigured print templates.

Your benefits at a glance:

- Precise colour printing
- Serial printing of metal markers
- High level of automation thanks to loader capacity of 30 MultiCards
- Durable and robust markers thanks to thermal fixing
- User-friendly operation thanks to intuitive touch display
- Can be used as stand-alone solution

General ordering data

Available until	2021-11-30
Type	PRINTJET ADVANCED 230V
Order No.	1324380000
Version	Marking systems, Labelling device, Ink jet technology, 1200 dpi, Multicard, MetalliCard
GTIN (EAN)	4050118127867
Qty.	1 pc(s).

PrintJet Cleaner

To improve the functionality of the cleaning unit, we have installed a fluid injection system to the latest version of the PrintJet Advanced printer. This provides a regular, automatic moistening of the unit with a special but environmentally friendly fluid to keep it running smoothly. One bottle of 100ml is enough to print 5.000 MultiCards. The bottle can be changed by a simple installation into the adapter. Please check if your PrintJet Advanced has been equipped with this adapter which is located beside the magazine for MultiCard.

Accessories

M-Print PRO

The M-Print® PRO printing and ordering software for markers and labels® is a professional Windows®-based solution for both printing and ordering Weidmüller labels and markers. This software allows you to optimise the process of identifying electrical equipment. You can design and order your marking materials easily, professionally and quickly: with text, frames, lines, graphics, bar codes, serial numbers and photos.

- Integrated product catalogue for all labels and markers, incl. images, link to the website and product data sheet
- Markers and labels can be designed on as many levels as required
- Customised formatting of individual text characters (RTF)
- Copy and paste texts and their formats
- Supports UNICODE for foreign-language texts such as Russian, Chinese, Polish, etc.
- Data entry in labels and spreadsheets, or directly in Microsoft Excel
- Creation of scales; numeric and alpha-numeric counters and sequences
- Extensive range of image formats (*.bmp, *.wmf, *.png, *.ico, *.jpeg, *.jpg, *.tif, *.gif)
- Image library including symbols used in electrical engineering
- Product-printer allocation options, e.g. ESG 9/20 to PrintJet; LaserMark to laser printer, etc.
- Online update service via the Internet
- RailDesigner interface
- Import wizard for a number of file formats (*.txt, *.csv, *.xml, etc.) for creating your own import scripts
- Transfer of data from CAE systems
- Permanent print preview: see what the printout will look like even at the design phase, WYSIWYG editing
- Supported output devices: PrintJet ADVANCED, PrintJet PRO, PrintJet I+II, MCP plotter, THM and standard printers with Microsoft Windows® driver
- Optimal and fast adaptation of output devices
- Multi-level structuring of markers and labels
