## Screwty ${ }^{\circledR}$ cable gland tool with torque function

## The ideal tool for any application

Screwty ${ }^{\circledR}$ is the ideal, all-purpose tool for tightening all common sensor and actuator cables. Even difficult-toreach round plugs are accessible using the Screwty® ${ }^{\circledR}$. A simple turning movement tightens and loosens the connectors without the need for excessive force. The Screwty ${ }^{\circledR}$ is a unique and global solution since it fits with most cables and plugs from other vendors (over $90 \%$ ). The Screwty ${ }^{\circledR}$ consists of a handle with a conventional $1 / 4$ " adapter. Thus it can be used for all sizes: for M12 and M8 round plug-in connectors, and for M12F and M8F customisable plugs and sockets, as well as for all M23 plugs and sockets.
