The continuous shrink sleeves of the MultiMark series are printed in seconds using our thermo-transfer printers. The length of the marker can be individually adjusted to suit the number of characters or available space. The required length is pre-perforated precisely using a special blade. With their oval shape the markers can be opened easily, applied quickly and shrunk precisely to fit the conductor. An external reel holder (1302920000) has to be used for reels above 30 m printing material.

Ink ribbons

Our marking systems can be used to quickly and reliably label connector markers, conductor and cable markers, device markers and labels. The M-Print® PRO software enables rapid and easy identification of your electrical equipment. You can design, label and order your marking materials professionally and quickly. Frames, barcodes, graphics or photos are easily incorporated. The versatile data conversion routines enable quick and flexible data integration. The Weidmüller PrintJet ADVANCED, MCP Plus and MCP Basic printers and the THM series printers are available for printing.
