MetalliCards are available in aluminium or stainless steel to meet a wide range of labelling requirements. The chrome-coated aluminium tags are the inexpensive alternative for a variety of applications, and in particular, they prove themselves through the deep contrasts of their multi-colour print.

In the technologically demanding chemical and process industries, you are on the safe side when using the stainless steel MetalliCard with its outstanding resistance characteristics. Its formats cover the needs of the entire system-identification spectrum. Whether small equipment or type plates, they ensure high-quality marking processes. The MetalliCard also offers optimum installation characteristics. MetalliCards can be used universally thanks to various fixation options: bonding, riveting, with tag holders or rails, or in combination with stainless steel cable ties.

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.

General ordering data

Type	CC-M 70/48 ST SDR
Order No.	1474380000
Version	MetalliCard, Device markers, 70 x 48 mm, silver
GTIN (EAN)	4050118290394
Qty.	1 pc(s).
compatible printer	1324380000

Technical data

Dimensions and weights

Width	48 mm	Width (inches)	1.89 inch
Height	70 mm	Height (inches)	2.756 inch
Depth	0.5 mm	Depth (inches)	0.02 inch
Net weight	17.4 g		

General data

Colour	silver	Material	Micro-etched stainless steel 1.4301 (ST)
Operating temperature range	-55...130 °C	Printed characters	Based on customer requirements (Please send M-Print PRO file)
Width	48 mm		

Classifications

ETIM 6.0	EC001288	ETIM 7.0	EC001288
