The continuous shrink sleeves of the MultiMark series are printed in seconds using our thermo-transfer printers. The length of the marker can be individually adjusted to suit the number of characters or available space. The required length is pre-perforated precisely using a special blade. With their oval shape the markers can be opened easily, applied quickly and shrunk precisely to fit the conductor. An external reel holder (1302920000) has to be used for reels above 30 m printing material.

Accessories**THM MULTIMARK****MMP**

The only printer you need for your marking tasks The THM MMP is a compact and modular thermal transfer printer that fully demonstrates its many advantages and high number of potential uses. The integrated cutting and perforation option enables continuous materials to be cut to any length – making your work considerably easier when it comes to cutting and assigning the respective labels. The printer edits markers and labels from the MultiMark family as well as continuous materials, textile and polyester labels, shrink-fit sleeves and PLC labels.

Your benefits with MultiMark

- One printer for all jobs
- Ideal for small and medium print volumes
- Nearly maintenance-free thanks to thermal transfer technology
- Good legibility (resolution: 300 dpi)
- Flexibility thanks to modular perforation and cutting unit
- The print roller can be changed in 30 seconds
- High output, 250 Dekafix markers/min.
