**Customised identification: EL**

The endless variations of MultiMark markers make them an economical alternative to conventional tag rails or special labels. For any given width, the length can be precisely configured by the software to match the respective markers perfectly. A blade is used to cut the labels individually to the specified size. Perfect for producing large labels for function blocks or complete terminal blocks.

**Your benefits with MultiMark**

- Double laminated polyester
- Can be used with equipment from many manufacturers
- Device markers with a familiar design

**Accessories / replacement parts**

Our marking systems can be used to quickly and reliably label connector markers, conductor and cable markers, device markers and labels. The M-Print® PRO software enables rapid and easy identification of your electrical equipment. You can design, label and order your marking materials professionally and quickly. Frames, barcodes, graphics or photos are easily incorporated. The versatile data conversion routines enable quick and flexible data integration. The Weidmüller PrintJet ADVANCED, MCP Plus and MCP Basic printers and the THM series printers are available for printing.

**Accessories****THM MULTIMARK****MMP**

The only printer you need for your marking tasks The THM MMP is a compact and modular thermal transfer printer that fully demonstrates its many advantages and high number of potential uses. The integrated cutting and perforation option enables continuous materials to be cut to any length – making your work considerably easier when it comes to cutting and assigning the respective labels. The printer edits markers and labels from the MultiMark family as well as continuous materials, textile and polyester labels, shrink-fit sleeves and PLC labels.

**Your benefits with MultiMark**

- One printer for all jobs
- Ideal for small and medium print volumes
- Nearly maintenance-free thanks to thermal transfer technology
- Good legibility (resolution: 300 dpi)
- Flexibility thanks to modular perforation and cutting unit
- The print roller can be changed in 30 seconds
- High output, 250 Dekafix markers/min.
